Our Spiritually Integrated Approach to Client Care

The supervisor-educator's approach to Psychospiritual Therapy Education is a multi-faith approach using spiritually-integrated humanistic therapies that are person-centered and inclusive of all faiths and traditions. Therapeutic modalities include emotion-oriented approaches, crisis response models, solution-focused therapy, Rogerian Person-Centered Therapy, and meaning-centred therapy. These approaches are demonstrated and applied in practice counselling scenarios, group supervision and feedback in both verbatim case studies and supervision.
